About Us:

We are a social enterprise which exists to build more sustainable food systems which are better for people and the environment. Our mission is to use food to build a better future and to create viable alternatives to traditional supermarkets which dominate our food systems and contribute to many of the big social and environmental problems we face; from excessive food miles and unacceptable waste; to the environmental impact of pesticides and artificial fertiliser.

Locavore was established in 2011 with a tiny shop on the south-side of Glasgow and since then has grown and developed. The Chard Holding Group CIC now operate Locavore through:

- Running our two Glasgow shops in Govanhill and Partick.
- Delivering local organic veg boxes to around 1000 households each week from Ayr to Edinburgh with our fleet of electric vans.
- Supplying other progressive retailers, caterers and processors through our organic wholesale offer.
- Growing local organic vegetables at a number of market garden sites which we sell through our shops, veg box scheme and wholesale service.
- Producing prepared foods in our kitchen to supply our shops with foods such as dips, bakes and food to be served within our Govanhill cafes.
- Running projects and initiatives that forward our mission of building a sustainable food system.
